The police and prosecutors in this State fear the truth, that is the only reason they would oppose the recording of interviews. The same flimsy excuses for not recording child interviews - you'll figure out that occasionally we are leading them to say whatever we want. Anything that brings greater clarity and opportunity for truth, like recording, should be embraced by those who are there to protect and serve but isn't. I am wholeheartedly in favor of recording. Recordings in all my cases in Clark County have been had for years with the prosecutor's assistance. Clark County may be backwards in many ways but not on this issue unless they are jumping on the don't allow recording bandwagon.
